## 1 Introduction

The following document is a Template made for LaTeX by Sascha Bilert. I tried to implement the most frequently used latex packages. If you have any comments please contact my under:

`sascha.bilert@student.jade-hs.de`

In many cases you need to add different `\usepackages` to format your Latex document for your own purpose.

## 2 Using Macros

## 3 Listings

## 4 Mathematics

## 5 Figures

## 6 Code-lines

## 7 The Bibliography

This is how you do citation in LaTeX using different styles [1]
